

AURORA[®] COMPACT FIRE PUMP SYSTEMS

At the heart of our systems you'll find the Aurora pumps you've relied on for over 90 years.

Aurora offers a complete fire pump system that has a small footprint, ideal for buildings with limited space. This pre-engineered system is factory assembled and ready to start, with only base grouting and pipe and power connections to be completed at site.

System Includes

- UL listed/FM approved Aurora fire pump
- UL listed/FM approved fire pump controller
- Aurora jockey pump
- UL listed jockey pump controller
- Pressure sensing lines complete per NFPA-20
- Listed OS gate and butterfly valves with tamper switches and check valves
- Suction and discharge pressure gauges
- Test manifold with hose valves
- Ball drip valve
- Casing relief valve

System Features

- Fits through a 36" doorway
- ETL listed system
- Built to NFPA-20, NFPA-70 and NEC standards
- Standard and custom configurations
- Capacities of 50–750 GPM
- Pressures of 40–160 psi

Available Options

- Transfer switch
- City bypass line
- Right or left flow direction
